

Student Admissions, Outcome and Other Data

For the Clinical Psychology Program at the University of Arizona

The Clinical Psychology Program at the University of Arizona jointly accredited by the American Psychological Association (Commission on Accreditation) and the Psychological Clinical Science Accreditation System (PCSAS). The information provided below is in full compliance with our accrediting bodies and is designed to allow for informed decision-making by prospective doctoral students.

Prospective applicants should appreciate that the numbers below do not tell all there is to know about our students in the Clinical Program, and by some measures, the numbers tell very little. For example, the Clinical Program does not rely solely on GRE scores as a measure of the best applicants. Students with research interests and research experience can find a good fit with Clinical Program faculty members who share the same research interests. The Clinical Program selects applicants based on (a) research experiences, (b) a Statement of Goals that includes the applicant's interest in psychology and research, (c) letters of recommendation and the quality of undergraduate training, (d) GRE and GPA scores, and, of course (e) the applicant's fit with our research-oriented, Clinical Science Program.
