Participants ages 18 to 40 in a romantic relationship needed for a research study

Researchers in the Department of Psychology at the University of Arizona are recruiting couples for a research study about how relationship partners interact and make first impressions.

Eligible participants can earn up to $100 each and a picture of their brain upon study completion.

The study involves:
- Completing tasks at two study visits one week apart
- Responding to daily surveys during the week
- Participating in a non-invasive MRI brain scan

To qualify, you must be:
- Between 18 and 40 years old
- In a romantic relationship for at least 6 months
- Able to attend two study visits lasting 2-3 hours each with your partner

For more information or to enroll, please email: couplesresearch@email.arizona.edu

An Institutional Review Board responsible for human subjects research at The University of Arizona reviewed this research project and found it to be acceptable, according to applicable state and federal regulations and University policies designed to protect the rights and welfare of participants in research.
